Introduced by M. of A. JOHN -- read once and referred to the Committee on Governmental Operations

AN ACT to amend the executive law, in relation to enacting the New York water-based fire protection licensure act for the purpose of regulating the business of layout, installing, servicing, repairing, inspecting, testing and maintenance of automatic water-based fire protection systems

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Short title. This act shall be known and may be cited as
2 the "New York state water-based fire protection licensure act".
3 S 2. Legislative intent. It is declared that there exists and may in

5 protection systems are installed and improper installation and/or
6 improper inspection, testing, and maintenance of existing fire
7 protection systems may adversely affect the public health, safety and
8 general welfare. It is further acknowledged that fire protection systems
9 are critical life and property safety systems and said systems whose
10 layout, installing, servicing, repairing, inspecting, testing, or main-
11 tenance require specialized knowledge and experience.

12 Therefore the purpose of this act is to protect, promote and preserve
13 the public health, safety and general welfare by providing for the
14 establishment of minimum standards for licensure of water-based fire
15 protection system installation contractors, certification of responsible
16 managing employees, as well as establish penalties for improper layout,
17 installing, servicing, repairing, inspecting, testing, or maintaining of
18 fire protection systems and prohibit unlicensed activities.

19 S 3. The executive law is amended by adding a new article 7-B to read
20 as follows:
